SPONSORSHIP and FUNDRAISING APPLICATION PROPOSAL .

We do kindly hereby requesting you for funding the above-mentioned sponsorship for **UNITED AFRICAN BROTHERS**. This is the time for our talent to be seen starting from Africa and then spread to the rest of the world. We are also keen not to waste this chance but lack of funds is now the blockage to successes.

Our main problem is lack of sound system, concert financing, recording and video shooting payment because we have no much potential to solve this financial dilemma. We had been hardly launched some more shows in Nairobi and recorded our songs and are played around by the listeners or our fans, Miraya FM Radio and Sudan Radio both Sudan and Kenya for the entertainment and message giving on the key issue of peaceful election, implementation of CPA particularly in Sudan, **HIV/AIDS** Awareness and so many issues not mentioned.

We are proud to be appreciated and encouraged to add some more messages through music but the situation is on our neck financially since we are all still in colleges.

This project is fully meant to improve all our roads to success by giving chance of destroying the bridge that blocked our ways as long as you will be considered us

In order for us to achieve the above aspiration, objectives and goals, we honestly appeal to you to avail your support to our Organization which is **UNITED AFRICAN BROTHERS**.

Meanwhile we look forward to hear from you as soon as possible, your whole-hearted committed co-operation will immensely be appreciated for your positive response is our success.

Yours faithfully
Dee Gee & Dogg2

INTRODUCTION AND BACKGROUND

We **United African Brothers** are two Sudanese lost and found boyz; namely Dee Gee & Dogg2, aged 24 and 25yrs old living in Nairobi. During the time when war was the headline in Sudan, we were captured by SPLA so that we shall be trained for the future war. I myself Dee Gee was carried on head by soldiers because I was too young to walk. Some more boyz and I were taken toward Ethiopia border to a town called Pichalle and kept there till 1991.

After a short season, a war broke out in Ethiopia when the current prime minister took over then we fled to Kenya followed our route to Boma town then to Nairus and entered Kenya through Lokichioggio and received by **UNHCR** for resettlement in Kakuma Refugees Camp in 1992.

UNITED AFRICAN BROTHER is a neither political nor propit making Organization. It is a youth Organization aimed to support young people around Africa. It had not registered due to lack of capital. The logo needs to be modernized.

BRIEFS ON MUSIC

There are two main entertainments in the world, which are **music, comedy** and **sports**.

By getting into one of these does not mean the act of committing to an offence or being a street child but a talent. We actually beg you parents not to get us wrong but contributing more advices and support on how we can carry out this talent since no seed can germinates without water.

BRIEFS ON THE SHOWS OR CONCERTS

Show motivates both youth and parents especially when they watch their children at the stage during the talent orientation. It also keeps youth busy in much practice to enhance their creativities time to time for the better. It is also an examination of the talent and it is where you come to realize your performance whether you are in a right position or not depending on how you see the fans cheering of you during your physical play.

OUR MISSION IN MUSIC

- Our mission is to build up our music stronger, be more loved by the listener in all areas that music matters.
- Promote peace by advising people of Africa to remain united and give peaceful elections chances in Africa through music.
- Support young people by mobilizing them to see how potential they are

OUR VISSION

Our vision is to see some changes across our life for the new bright picture, change and help others

OUR GOAL

- Our goal is to be best artist in giving a clear message starting from Sudan and catch up with the rest of the world artists and also as an Organization, our goal is to support young people across Africa educationally, musical supports, entrepreneurship support to be self reliance and many others young people ought to practice for their bright future.

Down is the research we conducted in Nairobi South Sudan and Uganda.

RESEARCH RESULTS ON EAST AFRICA YOUTH

Corresponding to the research that we conducted on Sudanese youth living in East Africa, we found out that most of the youth are having talent for their future that will turn to be the proud of Southern Sudan of tomorrow but lack of sponsorship was the failure. The talents comprise the followings:

1. **Drama entertainers** – Some youth have this talent to entertain people by making time for laugh, awareness & learn.
2. **Fashion show for girls and young men competition** – This is very clear competition in the world which also promotes people from nowhere to somewhere. Take the example of **TYRA of United State**.
3. **Actors & Actresses:** they have also shouted out their case to us. This section is a long-term goal and very difficult but results in a wonderful future taking the example of Nigerian actors and actresses.
4. **4.Girl of the season or the annual show competition:** - the girl of the season or the girl of the year means three different categories
 - ✚ The most beautiful girl at the competition
 - ✚ The Winner at Miss Malaika.
 - ✚ The best gal in other activities concerning gender like journalism, beauty making like salon and other things that gal won in the country and finally be awarded with anything that can promotes her in life.
5. **Best Artist Competition:** we have so many musicians but there must be the best musician selected by competition annually.
6. **Entrepreneurs:** Some youth never gone to school and sit idle because not all people in Sudan are having alive their mum and dad or they have both but nothing they can help them since they are illiterate resulted by lack of chances of education in Southern Sudan since the war was the headline. They dream business but no way.

When we interviewed youth individually why they do not speak or play out their talents so that they can be heard and seen, the outcome was the same answer that “**nobody to promote their talents**”. So this is the obstacle that restricted their feelings to be implemented or turn them in a useful being.

By going through this research, it came to our mind as **United African Brothers** to take this responsibility to communicate it to you and any good wisher to help us on how to go about it.

BUDGET for planned Concert in Nairobi in December

Code No.	Details	Currency in SDG	Kshs	US Dollars
0001	Venue payment (KICC)	10,000	300,000	3847
